

Front bumper spoiler

565 071 606

ŠKODA KODIAQ (NS)

Color: Silver / black

Aerodynamic design enhancement | Improved vehicle stability

The ŠKODA KODIAQ SCOUT is a bold and luxurious SUV with state-of-the-art comfort features and safety equipment. The **front bumper spoiler** lends an unmistakable **sporty yet stylish design feature** to the vehicle. It also acts as an aerodynamic enhancement that reduces the air pressure beneath the chassis. This improves the vehicle's driving stability and handling at higher speeds. The spoiler components are made of **premium quality PUR/PP materials**. This makes the spoiler very strong and robust. The spoiler is available in a silver design, while the cover caps are black. Adhesive sealant is used to **adhere** it to the surface of the front bumper.

For fitting, the following items must be ordered in accordance with the workshop's practices:

- from the ŠKODA Genuine Accessories range:
- Activator 3M 4298 UV / HHA 381 017
- from the DOW range:
- Betalink K2 adhesive sealant
- Betaprime 5600 activator
- Betawipe 4000 activator

Associated products:

- Rear bumper spoiler
- for vehicles without a tow bar / 565 071 610
- for vehicles with a tow bar / 565 071 610A

Material: PUR / PP

Installation time: 100 TUs

Set contents:

Front bumper spoiler, fitting instructions.

Limitations:

Only for KODIAQ SCOUT vehicles. **This is a spare part that can be used to replace the original component if it is damaged.** In the event that the vehicle is involved in a traffic accident and sustains damage to the front bumper, the damaged front bumper must always be replaced or, if appropriate, repaired. Then, once the paint has fully dried, a new front bumper spoiler can be adhered.

Guarantee: 24 months.

Due to the complex nature of the work required to adhere the spoiler, we recommend having this work carried out by an authorised ŠKODA AUTO service partner. The vehicle cannot be returned to the customer until the time required to allow the adhesive sealant to dry fully has passed.

Weight: 1.1 kg
