Front bumper spoiler

5EO 071 606A

ŠKODA OCTAVIA (5E)

Aerodynamic design enhancement

For those seeking to give their vehicle its own unique style, spoilers are available as **attractive design enhancements** from the ŠKODA Genuine Accessories range. Achieve maximum effect at minimal cost. The spoiler lends your vehicle exterior **an unmistakably sporty look, turning heads wherever you go**. The front bumper spoiler is an aerodynamic enhancement that reduces the air pressure beneath the chassis. This improves the vehicle's driving stability and handling at higher speeds. The spoiler is made from high-quality **PUR material** and, as a result, is very strong and robust. It is supplied by the manufacturer in the final finish. Betamate adhesive sealant, bolts and rivets are used to adhere it to the surface of the front bumper. The addition of the front bumper spoiler increases the total length of the vehicle by 21 mm.

Must be ordered from the ŠKODA Original Components catalogue:

- bolt 5 pcs / N 909 747 01
- bolt 2 pcs / N 911 955 01
- speed nut 5 pcs / N 900 942 01
- rivet 2 pcs / N 038 501 2

Must be ordered separately from the DOW range:

Color: Metallic black

Material: Polyurethane

Installation time: 120 TUs

Limitations:

Can only be fitted in combination with the rear bumper spoiler with order number 5EO 071 610A or 5EO 071 610B depending on the equipment specification. For safety reasons, the 5th door spoiler with order no. 5E5 071 605B or 5E5 071 605A must also be fitted to OCTAVIA (5E3) vehicles, unless the vehicle is already fitted with the 5th door spoiler as standard. Cannot be used if the vehicle's equipment specification features the virtual pedal. In the cause of a traffic accident, the damaged bumper must always be replaced. Then a new spoiler can be fitted.
